## Meera Nambiar, Head of Analytics

Computer vision for defect detection. Previously built rail track inspection models for a public sector client. M.Tech, CUSAT.

## How the team divides the work

|                                   |                                                                              |
|-----------------------------------|------------------------------------------------------------------------------|
| Rohan Fernandes                   | Commercial, fundraising and the board                                        |
| Capt. Ismail Haq                  | Product, operations and delivery                                             |
| Meera Nambiar                     | The function named in the role above, reporting to the CEO                   |
| Decisions requiring both founders | Hiring above a defined band, pricing changes, any commitment over Rs 10 lakh |

## Working history

The founders have worked together since before incorporation and hold vesting schedules running to 48 months from the date of the founders agreement. No founder has left and no founder holds an outside operating role.
