

Annual SaaS Agreement Template

Standard subscription agreement, version 2026.2

Structure

Twelve month subscription, auto renewing. Sensors are leased to the customer for the term and remain Voltaneer property. Installation is a one time fee.

Commercials

Subscription is banded by connected load: up to 500 kVA Rs 2.40 lakh, 500 to 1,500 kVA Rs 3.60 lakh, above 1,500 kVA Rs 4.80 lakh a year, payable half yearly in advance.

The savings clause

If verified saving over the first twelve months is below 4 percent of the baseline power bill, the customer may terminate and pay only for months used. Baseline is the twelve months of utility bills preceding installation. This clause has been invoked twice in 88 deployments.

Data

Consumption data belongs to the customer. Voltaneer may use it in anonymised and aggregated form for benchmarking. Any named use requires written consent.

Service levels

99 percent monthly platform availability. Sensor replacement within three working days. A named field engineer for every site.
