

DGCA Application Status

Directorate General of Civil Aviation

Current permissions

Operator registration active. Four DGCA certified remote pilots on staff. All three airframes hold a unique identification number and are registered on the Digital Sky platform. Within visual line of sight operations are fully permitted in green zones.

BVLOS application

Application for beyond visual line of sight operations filed 2 March 2026 under the Drone Rules 2021 experimental framework. Reference DS BVLOS 2026 0341.

What is pending

A site specific safety case for the Thrissur transmission corridor was requested on 28 April and submitted 12 May. No decision as at 31 July 2026.

Commercial consequence

Transmission line inspection at any useful scale requires BVLOS. Until it is granted, the largest single line in the pipeline, estimated at Rs 40 lakh of annual value with KSEB, cannot be executed. Every forecast in this data room excludes it.
