

IP Assignment Deed

Founder and employee intellectual property assignment

Founder assignment

All three founders executed a deed on 26 June 2023 assigning to the company every right in work created before incorporation that relates to the business, including the original metering firmware written by Aravind Rangaswamy in 2022.

Employee terms

Every employment contract contains a present assignment of inventions clause and a confidentiality undertaking surviving three years from exit. 26 of 26 employees have signed the current version.

Contractors

Two industrial design contractors were engaged in FY25. Both signed work for hire terms with full assignment on payment. Both invoices are settled.

Registrations

One design registration granted for the VT 200 enclosure, number 389442. Two trade mark applications, class 9 and class 42, both accepted and advertised with no opposition. No patents filed and none pending.

Encumbrances

No intellectual property is charged, licensed exclusively, or subject to any dispute.
