

Founding Team

Founders and key hires

Aether Semiconductors was founded in 2025 and is based in Kochi. The founding team is set out below, with the background relevant to this business.

Design lead, Co-founder and CEO

Eleven years in analog design at a global semiconductor company's Bengaluru centre.

Verification lead, Co-founder and CTO

Eight years in mixed signal verification, three tape outs to volume.

Applications engineer, Founding engineer

Customer facing design support, previously at an instrumentation OEM.

How the team divides the work

Design lead	Commercial, fundraising and the board
Verification lead	Product, operations and delivery
Applications engineer	The function named in the role above, reporting to the CEO
Decisions requiring both founders	Hiring above a defined band, pricing changes, any commitment over Rs 10 lakh

Working history

The founders have worked together since before incorporation and hold vesting schedules running to 48 months from the date of the founders agreement. No founder has left and no founder holds an outside operating role.
