Company summary, August 2026

What they do

Ground segment software for small satellite operators.

Where the business stands

Programme	DEEP LEAP, Cohort 2
Spacecraft supported	2, live
Paid pilots	2
Revenue	Pre revenue
LIVE seed assistance	Rs 30 lakh
Raising	Rs 4.0 crore pre seed
Team	5 full time
Monthly burn	Rs 7.4 lakh

Risks the company states itself

- Pre revenue at list price. The two pilots are priced below the target subscription.
- The number of funded Indian small satellite operators is small and known.
- Ground station networks could build this in house and are the obvious competitor.
