

Orbitfall Systems Pitch Deck

Seed deck, August 2026

What they do

Ground segment software for small satellite operators.

Where the business stands

Programme	DEEP LEAP, Cohort 2
Spacecraft supported	2, live
Paid pilots	2
Revenue	Pre revenue
LIVE seed assistance	Rs 30 lakh
Raising	Rs 4.0 crore pre seed
Team	5 full time
Monthly burn	Rs 7.4 lakh

The team

- Mission operations lead. Ran ground segment for four launches at an Indian space startup.
- Software lead. Distributed systems, previously on a satellite tasking platform.
- Ground systems engineer. RF and antenna control, from a public sector ground station.

The raise

Raising Rs 4.0 crore. IIMK LIVE portfolio company, introduced through the Matching Investment Program.

What we would still watch

- Pre revenue at list price. The two pilots are priced below the target subscription.
- The number of funded Indian small satellite operators is small and known.
- Ground station networks could build this in house and are the obvious competitor.
