Company summary, August 2026

What they do

Retrofit autonomous mobile robots for mid sized warehouses.

Where the business stands

Programme	DEEP LEAP, Cohort 2
Robots deployed	11
Warehouses live	3
Annualised revenue	Rs 2.11 crore
Price per robot per month	Rs 32,000
Raising	Rs 7.5 crore seed
Gross margin	41 percent
Monthly burn	Rs 16.4 lakh

Risks the company states itself

- Field service cost per robot is the number that decides whether this scales.
- Retrofit means every site is slightly different, which resists standardisation.
- Hardware depreciation is carried on the company balance sheet, not the customer's.
