

ESOP Policy

Employee stock option plan, adopted March 2025

Pool

1,20,000 options, 12 percent of the fully diluted capital, approved by shareholders on 18 March 2025. 74,000 granted, 46,000 unallocated as at 31 July 2026.

Vesting

Four years with a one year cliff, monthly thereafter. Acceleration on a change of control is single trigger for the leadership team and double trigger for everyone else.

Exercise

Exercise price is the fair market value at grant, most recently Rs 141 per share. Exercise window of 36 months after a good leaver exit, which is deliberately longer than market so that leaving does not force a purchase.
