

Sarva Health AI Pitch Deck

Seed deck, August 2026

What they do

Discharge summary generation for Indian hospitals, English and Malayalam.

Where the business stands

Programme	Business Incubation Programme
Hospitals live	5
Summaries generated per month	9,400
Annualised revenue	Rs 1.44 crore
Time per summary	6 minutes, from 34
Raising	Rs 8.0 crore seed
Gross margin	71 percent
Monthly burn	Rs 13.6 lakh

The team

- Clinician founder. Practised for seven years, wrote several thousand discharge summaries by hand.
- NLP lead. Clinical language models, previously at a health records company.
- Operations lead. Hospital operations, ran medical records for a 300 bed hospital.

The raise

Raising Rs 8.0 crore. IIMK LIVE portfolio company, introduced through the Matching Investment Program.

What we would still watch

- Clinician acceptance without edit is 89 percent and has to keep climbing.
- Hospital information system vendors could bundle this.
- Malayalam output accuracy trails English and is checked more heavily.
