

Quality Benchmark Report

Agreement and accuracy, Q1 FY27

Why we publish this

Every labelling vendor claims high quality. Almost none publish the number. We send this report to every customer monthly, including the results we would rather not show.

Results

Month	Items delivered	Revenue (Rs lakh)	Reviewers active	Rejection rate %
Feb 2026	94,000	18	214	9.1
Mar 2026	142,000	26	308	7.8
Apr 2026	186,000	34	402	6.4
May 2026	241,000	44	511	5.2
Jun 2026	288,000	53	588	4.6
Jul 2026	324,000	61	752	4.1

Where we are weakest

Multilingual medical items, where a reviewer works from a Malayalam or Tamil clinical note, run about six points below our English agreement. We have paused expansion on that line until it closes.

What changed this quarter

Tighter qualification cut the reviewer rejection rate from 6.4 percent to 4.1 percent, and adjudication load fell from 24 percent of items to 18 percent, which is where most of the margin improvement came from.
