Where students go

- Automotive electronics and EV suppliers in Hosur and Coimbatore take about 38 percent.
- Industrial automation and pumps in Coimbatore take about 24 percent.
- Electronics manufacturing services in Chennai and Kochi take about 21 percent.
- The remainder go to product startups, mostly in Bengaluru and Kochi.

What we do not claim

The 71 percent is on the placement track, not on total enrolment. About 28 percent of trained students opt out of placement, mostly for higher studies or the government exam route. We report both numbers to every college and we report them here.
