

FSSAI and Farmer Contracts

Licences and the farmer contracting model

FSSAI

Central manufacturing licence number 10024051000318, covering fruit and vegetable processing, valid to 31 March 2029. Separate storage endorsement for the Koratty cold store.

Farmer contracts

620 farmers on a written annual contract specifying a minimum offtake, a floor price agreed before the season, and payment within seven days of delivery. The floor price is the reason farmers plant for us rather than for the open market.

Floor price mechanics

The floor is set before planting against the previous three seasons. If the market price rises above the floor, Puzha pays the market price. If it falls below, Puzha pays the floor. This has cost the company Rs 14 lakh across two seasons and it is the single biggest reason the contracted base grew from 180 farmers to 620.

Other approvals

Organic certification under NPOP for the banana flour and jackfruit lines. Legal metrology packer registration. Trade mark registered in classes 29 and 30.
