

Incubation Agreement Template

Standard terms between LIVE and a portfolio company

Term

Twelve months of incubation, extendable once on review. Covers workspace at subsidised rates, mentorship, and access to the investor network.

Consideration

Where seed fund assistance is provided, it is on terms agreed per company with the Investment Committee. Incubation alone does not carry an equity requirement.

Confidentiality

Mutual. LIVE may name the company as a portfolio company and use its aggregate metrics in reporting to DST and in published figures. Anything beyond that requires written consent.

Exit

Either party may end the engagement on thirty days notice. Companies that complete the term are recorded as graduated, of which there are 65 to date.
